There are so many of us that are wishing to speak with you tonight! I suppose I will have to speak for everyone! This is Germain who is with you this evening in order to congratulate you on the great shift forward that you have all made in the time that has come upon the Earth in these last months, especially, of your time. (The Shift of the Ages which occurred on the Winter Solstice of December 21st – 22nd, 2012). We do not wish to go over everything that has been happening, you know the great shifts that have been made upon your planet, but what I can tell you is that all of you are making the most headway with this, with the energies that are available to you, that is possible to be made. And we are very pleased with the progress that you are making -- that is why we are all coming forward to speak with you tonight -- and there may be others, because there are so many who have messages of thanks for all that all of you are doing.

I suppose my message to you this evening is to say that none of you realize what you are doing on the Earth – and this is the truth of it -- from the spiritual perspective. You all believe that you are physical human beings – and, of course, I suppose this is true – but what we are interested in is the immense progress that we can see being made within each of you, because this is what is lifting the Earth at this vitally important juncture in her time, in her progress, in her evolution – because I will tell you, this time is vital for the Earth. This is a moment of opportunity which shall never come again exactly like this. I know that you do not know exactly what I am referring to -- but the energies, I can tell you, have all coalesced in the fineness of themselves, to form what is much more than what we had expected.

You are far ahead of schedule at this point -- and I doubt that anyone else has come forth to bring you this information-- and that is why I am stepping in here this evening to enlighten you on this point of the magnitude of the changes that are coming upon Earth. And I know how difficult (the effect of) this is upon many of your bodies, because you are all so extremely sensitive to energy. I know how difficult this is because I have watched this one (the channel) having to evolve with what is being brought forward in her life – and I can only assume that it is the same for many on the Earth, which we do not get a chance to see, to work with, as intimately.

But I can tell you – a word to the wise! Seize the moment in this timeframe – in this moment! Everyone seems to think that, "Oh, the greatest things will be coming for the Earth in some future time," and so they do not seize the moment, you see, in this exact frequency of energy where your physical bodies are now located, are they not? It is all perspective, as Portia says. And she is exactly right and she speaks to many about this. And so this would be my message to you this evening, as well – it is to have this great perspective that each moment of your time is precious upon the Earth, and shall never come again exactly as it is at that moment.

So many of you, as do all human beings, you wish to live in the future or the past -- when this moment is the quintessential moment that I have ever seen for this planet. And I have observed her evolution for a very, very long time! I am quite old, you see – but I am still in good shape! But what I wish to say to you is that you can all be in good shape as well! It is all perspective – it is all in the recognition of how to use such energies as what have been brought to you this evening by the Illumined Presence which we have had in this room (The Triad of the energies of Jeshua, Mary Magdalene, and Mother Mary) for your blessing, to assist you. Because we know how difficult it is for your bodies to align with all the energies that are now coming forth upon the Earth from the cosmic realms -- which are releasing all of these extraneous energies out of the Earth herself, and your bodies are being bombarded by all of this. Yes, this is a very difficult moment upon the Earth for the physical form – and it is a great challenge for those of you who find yourselves in physical form at this very moment.

But what I am here to tell you is this: Do not make it difficult by shooting yourself in the foot, so to speak, by always looking behind you at the past. You are the ones who drag all of this with you, aren't you, you see! I have taken a page out of Portia's book, because she often speaks about this with each of you -- and she has spoken about this before. But now I have the floor, so I will review it yet once again with all of you, since you have not apparently learned the lesson as of yet, you see! (humorously) And we shall continue to review this endlessly for you! That is our promise!

We know how difficult it is to be human at this moment – to be in physical form -- and, yes, we have great love for each of you. If you could only see the assistance that we are constantly bringing to each of you! But, sadly, much of this goes unnoticed, if not unused. And so my next point to you would be to be more aware when you feel these stirrings of Spirit about you – when you feel as though you are being tapped on the shoulder by someone who is whispering in your ear and perhaps has a message for you – because you can all hear this now! And do not tell me that you cannot, because I know that you can!

You see, the human frame is becoming so enhanced at this moment, that – and this would be my next point to you-- that I expect that those who are not yet seeing and hearing in the spiritual realms will shortly be finding that this is beginning to happen for you – if you will but allow it. You cannot fight it and have this happen. Many people fear this! Then dispense with the fear and get on with it, you see! Because it is coming for you! There is no way to stop it at this point -- because of all the changes that are happening --everything that is being stimulated by all of the myriad cosmic radiations that are imploding upon this planet daily! It is like a “light show” for us -- who can stand back and watch this from space! And we can only have great empathy for those of you who have physical form upon the Earth now. I know what this must feel like because I have been in physical form many, many times – but fortunately, not at a time like this. But I do recognize the challenges that you have. We all recognize the challenges – even if we are not walking beside you in physical form. Yet, perhaps this is a good thing, because we can actually be of the greatest assistance to you from the realms in which we reside, you see? So this is a happy set of circumstances, is it not?

We are your partners in all that you are doing – and I would like for you to realize this -- as well as Portia, who, of course, you know stands with all of you constantly, ready to assist at a moment's notice.

All you ever need do to call her to you is to think of her and call for her assistance – and it is the same with my own humble self! I can be of assistance at a moment's notice – and it is my great joy to do so with ones such as yourselves who are so dedicated to doing whatever is possible to assist everything that is going on upon the Earth at this point.

You all have myriad talents! I could sit here, and it would take me hours to enumerate all of the talent that is sitting in this room. You may not be fully aware of this, but hopefully this awareness will open for you gradually, and soon! This is what is coming for humanity – it is to consciously work hand-in-hand with those of us who have traditionally operated in the Realms of Light – who are now stepping through the veil to walk beside you on the Earth – and you WILL be able to see and hear us! This is the dawn of evolutionary progress for humanity, and it shall not take eons and eons of evolution to have this occur, I do not believe! In a few generations this will be much more commonplace that it is today, and it will become an accepted fact in society – whereas today, many people who say they can see and hear the Spiritual Beings would be thought to be a little strange. But do not let that stop you. You will be “breaking the mold” when you say to others that you are able to see and hear Angels, Ascended Masters, Guides, Jeshua -- whoever it is that you are seeing – perhaps even my own humble self!

But, what I wish to stress to you is to be open to this process – because nothing whatsoever can be forced upon humanity. We can offer -- your evolutionary process can propel you forward – but if you fight this tooth and nail, of what avail is it to you then, you see. It is imperative that you must have this awareness that this is normal, this is natural. This is what is coming, and quickly, for humanity! So do not fight it -- do not fear it -- and then you will be in the position of being a great assistance, as you are meant to be, to your fellow human beings -- because they will need your help, your guidance when this process becomes more commonplace across the face of Earth and spreads exponentially among the population. Many will think they have lost their minds if they do not hear from someone such as you – to explain to them what, in fact, is going on.

So you see the importance of your mission at this incredible moment of opportunity that you are having here upon the Earth. I cannot stress this too much, to say that you will only get one “go ‘round” with this, because when you return everything will be different. It will all be done – and you will have missed your opportunity to participate in the greatest change for humanity that has ever been made on Earth if you do not open your awareness and participate fully with all the grand opportunities that are being opened now for humanity, you see. There are many of us (to assist you), not only myself and Portia. It is limitless! I could not name them all if we sat here all night! And you must avail yourselves of all of this assistance!

That is not to say that you must work with thousands, because you are matched with those who are most able to assist you personally and individually, you see. But you will feel that, you will know it, when this happens. You will feel and know when they step forward to introduce themselves on an energetic frequency level. And you will have awareness of this – you are all at that point now – you can feel energy. And so, what I wish to say to you, in closing, is to encourage you to have that "explorer spirit" that you have come here with, that you bring with you wherever you go, wherever you choose to take incarnation – to revive this within yourself if you have not experienced it lately. And I expect what

will unfold for you will be something beyond your wildest imaginings. But you must work with the process! You cannot fear it! You cannot fight it and expect it to unfold! Do I make myself clear?!!

You are beloved of all of us here! That is why we come to encourage you, to tell you of the immense abilities which lie within each of you, and to encourage you to explore the unknown within all of this. It is immense -- what lies within each of you -- which you are totally unaware of at this point. We hope to assist you, and to smooth the way before you – that you may have more conscious knowledge of this. We are starting to work with many of you in the inner classrooms where you attend during your night times, and this will be happening on a more regular and frequent basis, I expect, because you need this assistance now – and we are certainly aware of this, and wish to provide it in every way that is possible.

It has been our pleasure to be with you – this Illumined group!

And we shall speak with you once again,

Good evening
