Greetings beautiful ones, all you hard workers for the Light!

We have really given you much to work upon in these last several of your weeks, and this would be Germain speaking with you now. It is our great pleasure to be in attendance with all of you, and to have these moments, as we may, to come upon you unawares and to take you by surprise with these energies that we bring -- and to see the great changes that come over you so quickly as a result of being enfolded by these magnificent energies from the ones that you know who are constantly attending you in this room.

We bring you this Light to see what you will make of it, within your lives, within your minds. You are constantly using everything we bring you, and this is very good. Even those of you that do not consciously realize how you are moving forward with this, you are making great progress -- and I say this to dispel the doubt which is so pervasive among mankind -- and this is one of the greatest stumbling blocks that has ever been before the foot of humanity -- is this constant doubt and wondering. This places an impediment before your feet, where really there is none. You could be walking along your path perfectly well and be perfectly happy, but you always look for something to be in your way! And often by looking for it in such a dedicated fashion, of course, you are the ones to create it!

What I want you to think about is the difference it could make in your life to have positive attitude instead of this constant worry that some of you feel you must have in order to be happy, I suppose. Because human beings do tend to be happiest when they are firmly ensconced with in their habits -- and I am being kind here, I am not calling this a "rut" as it truly could be termed by one who did not have the manners that I have! And so I bring this to your attention, ladies -- because that is who is in the room -- Ladies! I bring this to your attention as your most humble servant this evening. Why? Because we would like very much to see you freed from these habits of thought, these habits of feeling, and to move forward unfettered by everything that, quite frankly, you have been allowing to hold you back.

This is no longer necessary for any of you -- you are too far along the path to allow this type of intrusion into your mind, into your purpose, what you could be doing -- because there are two sides to most of you. There is the old side that contains all of these doubts and worries and "what if" and "oh, it might be this way" -- and then there is the new part of you that we are looking at here -- that is being built, step-by-step, and stone by stone, every time you come into this room and give us the opportunity to enfold you in these transcendent energies of the Light which are capable of making such a change in all of you so quickly.

So you have these two sides of yourself going here -- and sometimes they fight and sometimes they get along with each other. We are very amused sometimes to watch this process within each of you -- because you are truly, all of you -- you are in the midst of this now. Some of you, you do not know which way to go with this. You go toward the old way and then you turn around and you make great strides towards the new! And so this is the path of change where you find yourselves now. And this is often the way it is for humanity. This is how I found human life on Earth to be, many times -- very changeable, very disconcerting.

It is almost as though sometimes you feel that there is nothing whatsoever that is solid, that you can put your hand on to steady yourself -- and this is how it is going to be for the rest of your lives! (Laughter in the room) I bring you this happy message tonight, in order that you may find something that will steady you in the midst of all of this. Now, what would that be? Let me see -- could it be hope that the future will be brighter, that your lives will be happier! Maybe it would be the recognition of the great creative power that you have -- to be creating now exactly what you wish to see come into manifestation onto the Earth before you very soon -- because this does not take the great lengths of time as it used to, as you know.

It is very fast, this process of manifestation -- because you are all becoming so accomplished -- you are great "manifesters" now -- and you bring all of this transcendent ability into your lives that, quite simply, you have received much of this from what we do with you -- so, yes, we are going to pat ourselves on the back a little here. But the important point with all of this is to have faith in yourselves, and not to put this faith outside yourselves into these structures that are going to be crumbling and falling before your sight! You must, quite simply, place your trust in its normal resting place -- and that would be within each of you.

Who else can you trust the way you can trust your own self, to know what you will be doing, what you wish to do, what you will be thinking, what you will be creating. So, no, do not be worried about what is going on outside of you -- because this will do no good whatsoever! All of this is going to fall! Not today, not tomorrow -- but soon! And the progress of this will continue until everything that you see outside of yourselves now has been replaced by something which I think, in my humble opinion, will be a vast improvement for humanity! It will certainly be more agreeable to you! It will be much more pleasant to live with! It will acknowledge the fact that you are human and divine -- it will acknowledge the level of divinity which is now coming forward within each of you. And I wish to see this continue -- and that is why I'm telling you now that you must bring your powers of creation where they belong, recognizing that you are the source of creativity within your world.

You do not need to be afraid of these false structures that have been oppressing you and all of humanity through their tyrannical operation, in many cases. You no longer need to be in the state of fear, shall we say, about this entire process that has been going on for a very long time on Earth -- because I don't expect this is going to be of long duration upon the Earth! And this is the happy message that I bring to you, is it not? Good! You see how easy it is to be happy in the face of all this change which will be putting many people into a state of desolation and fear. And this is why it is your job, dear ones, as has been so well described to you by that one that you have called Jeshua or Jesus. He has given you this

beautiful message about what you must do now to be the rock for all humanity – to be the stone that is not turned, to be the foundation stone for all that is new and is going to be built upon Earth by those such as yourselves.

And this is going to be a beautiful process to behold upon the Earth! Nothing like this has ever happened before on any planet in any system of worlds – and we await you breathlessly to see what you will create. You just need a little encouragement – to take the straight path through this – which is to recognize your power, the divinity of the heart center within you – the source of your true creativity, and to own it, to seize it, to know it! And to be this force of power on the Earth – even while you are holding this beautiful love center of the Goddess energies within you! Do you see what I'm telling you? It is balance -- it is what you will do, to be ascended human beings on the Earth, yet while you are still in human form. And this is where you are going with this – all of you – to see this, to see the possibility of it! Yes! And to bring it about – because that is all it takes with you, to see it, to know it, and to do it!

You do not take eons of time to learn and to know, and to understand exactly what I'm saying to you now. You are that quick in your abilities! And that is why you are here – and not someone else! Because you have demonstrated this ability on all levels of who you are for a very long time, and we trust you. We know that you will do what you have agreed to do, what Portia has written into your contracts – so assiduously, I might add! She is very quick with this! She can change them quickly as well – to add more – as this one here knows very well! (Germain is referring to the channel.) So be on guard my dears, else you find yourself with twice as much in your contract to be accomplishing while you are having this long lifespan that you will be having as a result of all of this wonderful health information that you are all studying now! And we are very happy about this because we want to see you remain on the Earth for a very long time.

So, yes, this is good to attend to the physical form, as I have always done when I needed to be in physical form – it is wisdom, is it not? You must be here, you must be in this body, and to take care of it only makes sense. But we are preaching to the choir here, we have no worries about any of you because you are all studying this now, you are learning, you are doing, and your bodies are in very good shape, all of you, so we can set aside all worries on this account, and to bring you into the oneness of this moment when all that I have told you is now being consolidated within you, so that you have no more worries about where you are going with any of this. You know where you are going -- you know what you will be doing – in the main – for the remainder of your time upon the Earth. And of course there may be some of the new assignments coming along as well, but do not be taken by surprise with this, because there is always the unexpected, is there not? Portia is very good at this! And she is very quick with those contracts, too! And we make a very good team with this! I encourage you while she writes the new contracts! (He turns to address Portia.) Don't you, my dear? She is ready if anyone wishes to volunteer for new projects, you can speak with her! She has her pen in hand!

It is very good to be with those who have worked so hard to come to this point upon the Earth -- so that we may joke with you about what is in your contract, because you are all doing so well. We are checking off your points that you said you would do! Many of you are near the bottom of your list, so we will have to add on some new things for you. This is what happens when you are very good at what you do!

This is why you have been sent in here. This is why you are saving the Earth! We knew what we were doing when we chose you to come here! Yes, we are in agreement on that point.

Blessings to each of you, you are doing an exceedingly good job in the present moment, and I expect that this will continue for each of you because you have our continuing support – to light the fire underneath you, should this be needed! Take good care of yourselves, as we care deeply for each of you – holding you in exceedingly high esteem, and great love, as through the heart of this one who spoke to you earlier (Jeshua/Jesus), and has so inspired all of us in this room to BE, yours in deep devotion and admiration.

I am Germain, and I speak to you now with this message,

Adieu
