Travel the universe with The Blue Star Child as she translates for us, her fellow adventurers, the geometrically-based energies of Angels, Archangels, starships, ET's, and Goddesses, existing in other dimensional realities!

Ha-Ru-Ko describes these higher-realm energies for us in the form of refined geometric images and free-hand drawn lines and shapes (not computer-generated images), which translate the complex composition of multidimensional reality into a form which our brains can then receive and download as a comprehensible form of energy transmission.

Received by the right hemisphere of the brain, the portion of our brain which decodes the energies of shapes and colors, her images transmit these refined frequencies of 5th dimensional, and higher, realms in a form which the brain can understand, download, and receive. Absolutely breathtaking when completed, the original drawings of these images are approximately seven feet in height!

This unique gift, which The Blue Star Child embodies, brings untold blessings to an Earth-based humanity, which is in the process of receiving our own "Ascension to the Light" – and Freedom! While gazing at these images, we experience a "download" of extremely refined, high-frequency energies from these other multidimensional realities, which she can see, with the "inner sight."

The Blue Star Child, Ha-Ru-Ko, is a "translator of the Divine realms" to a humanity who has never needed this assistance more than at the present time, when we sometimes struggle greatly in the process of recovering our "original selves" – the part of us which is "our Divine Being" -- as we were, at the Dawn of Civilization on Earth, before "The Fall of Man."

Our consciousness is now poised to make a great leap to a higher understanding of the reality of the multidimensional realms – which Ha-Ru-Ko so beautifully and skillfully describes and illustrates for us!

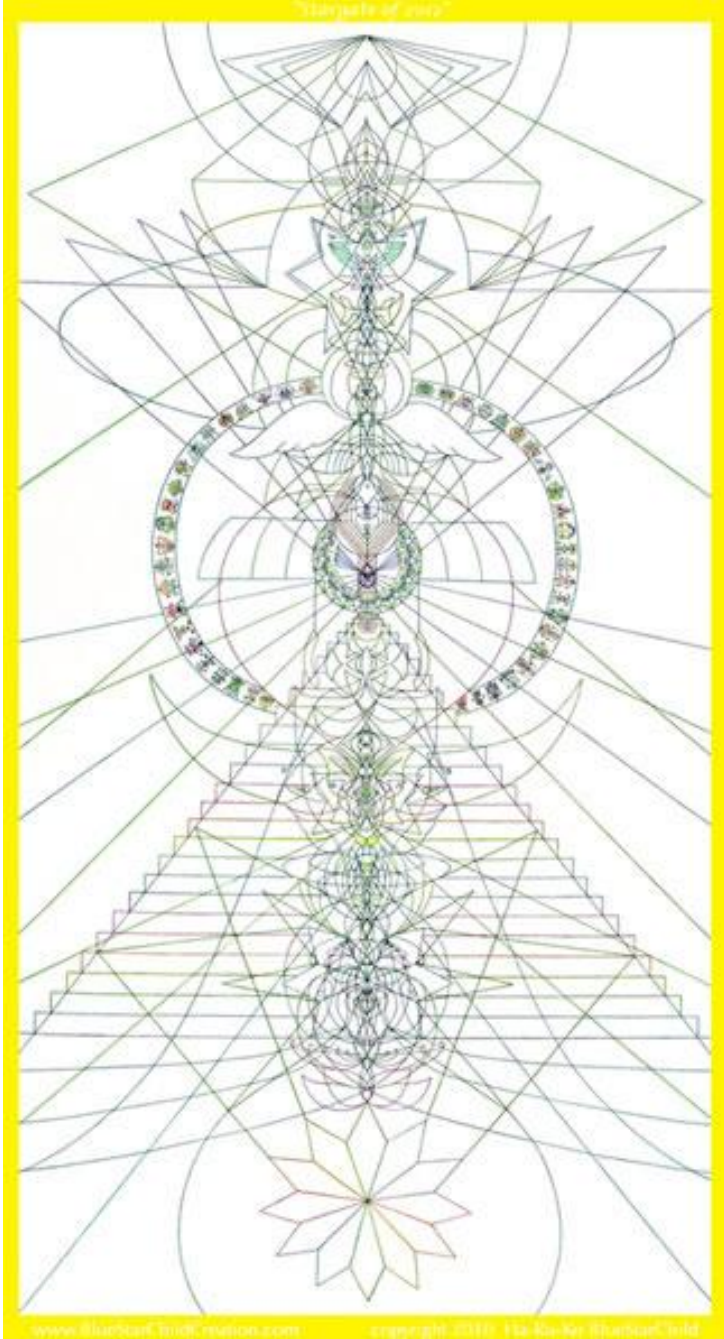

Quite literally, as Ha-Ru-Ko focuses upon these images in the divine realms with her feelings and the "inner sight," she draws the images and shapes on paper, which are then able to translate these energy-frequencies into a comprehensible format -- so that, also, our right-brain hemispheres are able to recognize and download these energies. We can subconsciously "recognize" and "download" these higher energies from the divine realms, on the frequency, or brain-wave "channel" which she so elegantly creates for us!

Note from Star:

I have personally been inspired to take one of these “cosmic trips” -- after gazing for a while at Ha-Ru-Ko’s image, titled “Pleiadian Mothership.” This event occurred during the night time, after viewing the image earlier in the day. And so, I can personally attest to the genius of her artistry.
