Dearest Ones,

We would suggest that all of you now hold your focus steadily on Truth and Light, even as many disruptive energies attempt to usher in a different paradigm for earth! This is an exciting time for those of you who are the Lightworkers on earth, because you have an opportunity to see something totally new being created in spite of these activities and energies which can, at times, seem violent and negative. However, realize that even in the midst of all of this disruption and negativity, something new and beautiful is being born – and that is a new level of freedom in your country – as well as many new concepts in your society. We bring you this information in order to support each of you -- and to further this process!

Although few people are aware of it, this time on earth is quite beneficial for humanity, even though it obviously contains immense challenges as far as your ability to hold your focus on the higher energies – and the higher perspectives of Divine Truth and Light!

We want to speak with all of you now, to assure you that the higher energies supporting the new paradigms of Peace and Freedom for earth ARE being established on this planet. We know that you see the rioting in your streets and the destruction of private property by mob violence in your cities – and it is difficult not to allow this material to take precedence in your consciousness.

“The Shining Star”

This is precisely why we bring you this message at this unique and important moment on earth – when it is your determined focus which holds the energies of Light, Love, and Power which will continue the transformation of this planet! Your love is needed now to continue the great work that is being done – to transform earth into The Shining Star in the cosmos which she CAN AND WILL BECOME!

Earth is poised to take a great leap forward in her evolutionary progress, and this has drawn the attention of energies who oppose this progress. It has ever been so! This time is no different from all the earlier occasions when humanity has found it necessary to battle the lower energies for every step forward! However, in this timeframe, the stakes are HIGHER! Those of you on the earth are ready to take “a giant leap forward!”

“The Cosmic Clock Strikes Twelve!”

There have been great cosmic alignments which have highlighted this time on earth as the time of a great evolutionary step forward for you, for humanity, and for all life on earth! Yet, there are those who do not wish this activity to take place.

Do not despair – do not be concerned, for it has ever been so! You have been opposed at every moment of great opportunity for progress on earth – yet this has not prevented your progress – or your Victory in the Light!

“The Grand Plan for Earth”

You must have faith that there IS a Higher Divine Plan for Earth which is even now unfolding on this planet! Great changes are being made “behind the scenes,” where you cannot see what is occurring. So, you will just have to TRUST US when we tell you that everything IS in alignment with this Higher Divine Plan for Earth -- which is unfolding now! Know that you ARE on schedule to pass through the necessary “doorways of opportunity” to meet your destiny in the COSMIC HOUR which has been divinely ordained by many in the Ascended Realms who have long worked for your benefit, and the benefit of earth.

“The Dawning of a New Day”

The hour approaches for the redemption of earth from the influence of these dark energies which would hold you as prisoners – bound in ignorance of your Divine Heritage and your Destiny. The days are numbered for the dark energies who have held earth bound in ignorance, despair, and darkness – for even now we witness the dawning of a new day on your planet, as you are being inexorably lifted from the grip of these lower energies!

“Hold Fast to the Light!”

“Hold fast to the Light!” That is our exhortation to all of you who work to free the earth from darkness and the influence of all lower energies. Believe that you ARE making a difference for the earth – through your very presence on this shining orb! For she DOES shine in the cosmos – and the amount of Light she is emitting is growing! We can see it, and many others can see it! Even those who observe earth from their vantage points throughout the galaxy are aware of this activity of Divine Light. You would be surprised at how she appears now, even compared to a few years ago! She is now RADIANT with Light – appearing as a Shining Beacon of Freedom in your solar system!

Perhaps you did not know this information, since you would not know it from listening to the many recent accounts of violent and destructive events presented in your news media. However, we are very much aware of the amazing leaps forward which are even now being made on earth. And so, we bring you this message, in love and with appreciation for all that you, the Light Workers, are steadily accomplishing on this planet!

Perhaps you did not know this information previously, but you know it now! Be confident, dear ones, and do not allow your confidence, or your faith, to be shaken or affected in any way, by the violent outbursts which you witness taking place daily in your society – for this too shall pass. And it will be remembered only as a tiny footnote in the records of the vast resurgence of Light, Love, and Power which is NOW taking place on your planet.

Sometimes it is good not to believe your eyes! Instead, believe the Truth which resides in your hearts – for you know that you are the “Divine Change-Makers” for earth – who have come here with a Mission – and you WILL PREVAIL over all that is less than Light!

“The Sacred Silence”

Know that you are guaranteed of success in your mission to restore the Divine Light of her heritage to this blessed planet. Remember to be in “The Sacred Silence” for a time each day, when you can receive the blessings of our energies as well as our words of inspiration to all of you.

Remember to always remain positive in your attitude – even amidst the storms of negativity which now often circulate on the earth, propelled by the consciousness of many who, unfortunately, do not know how to maintain their connection and alignment with the energies of the Higher Divine Realms of Consciousness.

With our love, we are Lady Portia and Count St. Germain

Channel's Note:

Lady Portia is known by many in the Ascended Realms to be a “Warrior Goddess,” who even now marshals her forces – to awaken and guide the Light Workers on earth. Her achievements throughout this galaxy in support of the activities of Freedom and Victory of the Light are legendary.

Lady Portia and her Twin Flame, Count St. Germain, have chosen to bring us this important information and perspective at this precise moment on Earth because they know that this information is exactly what will be needed to support and empower the Lightworkers. We are moving forward very quickly now, in response to the circumstances created by this huge contest between the energies of dark and Light, or fear and love. This is a contest for the attention, energy, and focus of consciousness of those of us who now exist in the Earth plane reality.

Since Earth is a “free will zone,” the beings incarnating here have the right to choose whether they will use their divine gifts of thought and feeling to co-create with Divine Source energies on the “patterns of perfection,” or whether they will choose to create on the patterns selected by the fallen human ego -- which involve war, destruction, fear, and violence.

The Divine Light on Earth is increasing exponentially every day! And that fact is precisely what has thrown those who are focused upon “creating through the use of the dark energies” into a state of fear and terror, believing that they are being destroyed.

Nothing could be further from the truth, for life cannot be destroyed. In fact, they are being given a wonderful opportunity to choose to move into the Light and have their own consciousness transformed by their Divine Essence -- which they will then be experiencing. However, many of these beings do not realize the truth of this statement and erroneously believe that they are in the process of being destroyed by the Light. This is why it is so important that we all hold the

energies of Divine Love and Light at this time, realizing that these beings are divine creations of consciousness, just as those who choose to co-create using the energies of the Light. We were all created by the One Source, the Creator of All-That-Is, and these beings, however misguided they may be, are our brothers and sisters.

It is our prayer that we may all re-unite in the Higher Consciousness of the Oneness of Love.
